# EVERYTHING YOU NEED IN ONE PACKAGE.

We know the importance of keeping things simple. That's why every Vision Trimline fire comes complete with 'included extras' to help make your purchase as easy as possible.

As standard, all fires come complete with:

- Ecomax remote control
- Adjustable legs
- Control access door
- Convection vents
- Glowing embers
- Double Burner (DB) feature

## INTERIOR STYLING.

For that extra WOW factor, why not choose to upgrade to a black mirrored glass lining for your fire chamber and add a reflection to the fuel bed and flames to give a remarkable effect of added depth and detail.

If burning logs is not the look you are going for, then perhaps you would be more interested in an alternative fuel bed for your fire. The collection features a range of stunning options to choose from.
