Welcome to Vision Fires. Discover our luxury range of contemporary electric appliances and suites, thoughtfully designed to showcase the captivating beauty of fire. Our fires meticulously replicate the natural look of a living flame with expertly crafted fuel beds and flame patterns.

For over 75 years, Vision Fires has been supplying high-quality fires, stoves, fireplaces, solid fuel spares, flue systems, and associated products to the heating industry. During this period, the company has become renowned for superior quality, craftsmanship, and innovative products. We pride ourselves on maintaining the values of a family-run organization, with sustainable and steady organic growth, backed by excellent customer service, unsurpassed quality, and a commitment to ensuring our customers' needs are paramount.

We are dedicated to quality, design, and craftsmanship. Our electric fires and suites are not only functional but also stunningly elegant. With a variety of options available, you can choose the perfect fire to suit your home's style. Additionally, we offer a range of carefully selected frames and fireplaces to enhance the design of these exquisite fires, ensuring the visual element of the fire remains the focal point.

Mirano Suite:

Transform your living room into a captivating haven with the extraordinary Mirano Suite. Crafted from high-quality white veneer, this suite comes complete with an appliance, hearth, and slip set, making it the ideal choice for larger rooms or for those looking to create maximum visual impact. Guaranteed to give your home that touch of style and luxury, this suite exudes timeless elegance and radiates a mesmerising allure that will leave you and your guests in awe.

Material

The white veneer used in the Mirano Suite's construction not only adds to its visual allure but also guarantees durability and longevity. Enhance your living space with the Mirano Suite Fire Surround, a captivating statement piece that perfectly combines designer aesthetics with traditional charm. Elevate the environment of your home and create a warm and inviting atmosphere that will delight you and your loved ones.

Coppice Real Log Set Now Standard*

Enhance your Mirano Suite with the Coppice Real Log Set, now included as standard with your appliance. Offering ultimate realism, this hand-crafted feature uses specially selected natural logs to create an authentic latticed fuel bed, complete with forest floor embers.

Each Coppice Real Log Set is uniquely produced in the UK using locally sourced materials, expertly bonded together to form a single, easy-to-install piece that delivers the perfect finishing touch to your fire. While every effort is made to maintain a consistent layout, natural variations in the materials mean each set may display subtle differences in finer details.

*only when specified at the time of purchase.

Technology

Using cutting-edge technology and innovation to provide instant heat, realistic flames, and adaptive ambient lighting to your living space. This suite is an ideal choice for larger rooms or for those looking to create the maximum visual impact. With its exceptional design, the Mirano Suite effortlessly blends contemporary aesthetics with traditional charm. Its sleek lines and refined craftsmanship make it a true masterpiece that complements any interior decor, whether you lean towards modern or classic styles.

Horizon Stove: Elevate Your Home Heating Experience.

Experience the pinnacle of electric stoves with the Horizon. Combining cutting-edge technology and innovation, the Horizon provides instant heat, realistic flames, and adaptive ambience to transform your living space. Designed for ultimate functionality and smart control, you can adjust the speed, colour, and brightness of the mesmerizing flames, enjoy the enchanting crackling sounds of burning logs, or enhance your space with ambient lighting.

Additional features such as sound effects, flame speed control, eco mode, cool blow function for both functionality and comfort.

This freestanding electric stove offers unparalleled installation flexibility, requiring only access to a power point. The Horizon effortlessly blends authenticity and convenience, making it the most sophisticated electric stove on the market.

Horizon Electric Stove Log Store

Complete the look of your Horizon Electric Stove with the elegantly designed Horizon Log Store. Crafted to flawlessly complement the sleek lines and classic style of the Horizon range, this log store not only adds height and presence to your stove but enhances the cosy, authentic fireplace aesthetic. It provides the traditional charm of a wood-burning stove, creating a stylish focal point for any room. Its sturdy build offers a practical and decorative solution, giving you space to store logs, fire accessories, or simply create an inviting display. Whether you're looking to elevate the visual impact of your electric stove or introduce a touch of rustic charm to your living space, the Horizon Log Store is the ideal finishing touch.

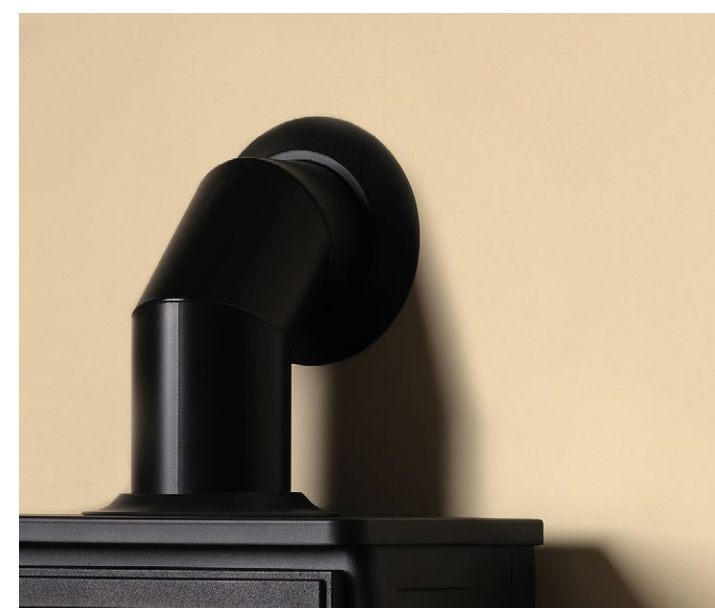

Coppice Real Log Set Now Standard*

Enhance your Horizon Stove with the Coppice Real Log Set, now included as standard with your appliance. Offering ultimate realism, this hand-crafted feature uses specially selected natural logs to create an authentic latticed fuel bed, complete with forest floor embers.

Each Coppice Real Log Set is uniquely produced in the UK using locally sourced materials, expertly bonded together to form a single, easy-to-install piece that delivers the perfect finishing touch to your fire. While every effort is made to maintain a consistent layout, natural variations in the materials mean each set may display subtle differences in finer details.

Horizon Electric Stove Decorative Pipe

Enhance the traditional charm of your Horizon Electric Stove with the beautifully crafted Decorative Pipe. Designed to perfectly complement the stove's timeless aesthetic, this pipe adds the look of a real wood-burning setup without the need for a chimney or flue. It's the ideal finishing touch for those wanting to capture the authentic appeal of a classic stove in any room. Crafted for easy installation, the Horizon Decorative Pipe completes the stove's visual impact by creating the illusion of a functioning flue. Whether you're placing the stove in a living room, study, or conservatory, this accessory transforms your space with a touch of rustic elegance. The Horizon Decorative Pipe is the perfect addition for anyone looking to elevate the authentic look of their electric stove, providing timeless appeal.

Harvard Electric Stove:

A confident expression of modern stove design, the Harvard Electric Stove balances clean minimalism with subtle references to traditional cast iron styling, bringing a timeless yet distinctly contemporary presence to any interior.

Expertly crafted with a durable steel body, complemented by a cast aluminium door and handle, the Harvard is finished in an elegant matt black that enhances its understated character. Soft bevelled detailing and refined proportions create a sense of quiet sophistication, while the expansive glass window ensures the flame picture remains the true focal point.

Additional features such as sound effects, flame speed control, eco mode, cool blow function for both functionality and comfort.

Combining thoughtful design with a strong architectural form, the Harvard Electric Stove delivers both visual impact and enduring appeal, an effortlessly stylish addition to modern living spaces.

Harvard Stove Log Store

Complete the look of your Harvard Electric Stove

Enhance your Harvard Electric Stove with the beautifully crafted Harvard Log Store. Designed to perfectly complement the timeless styling and elegant proportions of the Harvard range, this log store adds height, character, and visual impact to your stove while creating an authentic fireplace feel.

Combining traditional charm with practical functionality, the Harvard Log Store provides an attractive space for displaying logs, storing fireside accessories, or adding decorative touches to your living space. Its robust construction and classic design help create a warm and inviting focal point, bringing the cosy appeal of a traditional wood-burning stove into a modern home.

Whether you're looking to elevate the overall presence of your electric stove or add a touch of rustic elegance to your interior, the Harvard Log Store is the perfect finishing touch.

Harvard – Coppice Real Log Set Now Standard*

Enhance the realism of your Harvard Electric Stove with the Coppice Real Log Set, handcrafted in the UK using carefully selected natural logs. Designed to create an authentic fuel bed with detailed forest floor ember effects, it perfectly complements the classic styling of the Harvard stove.

Each log set is supplied as a single, easy-to-install unit and, due to the natural materials used, features subtle variations that make every set unique.

*Only when specified at the time of purchase.

Harvard Electric Stove Decorative Pipe

Complete the authentic look of your Harvard Electric Stove with the Decorative Pipe. Designed to complement the stove's classic styling, it creates the appearance of a traditional wood-burning installation without the need for a chimney or flue. Easy to install, the Decorative Pipe adds height, character, and visual impact, enhancing the realism of your stove and creating a striking focal point in any room.

The perfect finishing touch, the Harvard Decorative Pipe brings timeless charm and a more authentic stove experience to your home.

VS40 Eros: Full Depth Inset Electric Fire.

A beautifully contemporary 16" inset electric fire, the VS40 Eros is designed to deliver exceptional realism and presence. With its generous 300mm depth, it allows for striking, full sized log arrangement, enhancing the visual impact of the flame and fuel bed for a more immersive experience.

Available with a selection of contemporary steel trims in Chrome/Nickel, Black/Chrome, and Gold/Black, the Eros offers a refined, modern finish to suit a variety of interior styles. At its centre, a realistic illuminated log set features full colour and brightness adjustment, complemented by a gently "breathing" ember bed and carefully controlled flame visuals for an authentic, dynamic display.

Layered lighting including downlighting and fuel bed illumination, along with ambient light compatibility, allows you to tailor the atmosphere to your space. Delivering up to 2kW of heat, the fire can be controlled effortlessly via remote, app, or voice command, ensuring complete convenience.

Additional features such as sound effects, flame speed control, eco mode, cool blow function and a discreet no-canopy heater further enhance both functionality and comfort, while a wall-mounted remote holder adds a thoughtful finishing detail.

Combining modern design, advanced technology, and outstanding visual realism, the VS40 Eros creates a sophisticated and versatile focal point for any interior.

VS40 preset colour options shown below. For added installation versatility, the VS40 Eros is also available with an optional spacer box, enabling easier fitting where additional recess depth is required. See page 15 for spacer box details.

VS40 preset colour options:

VS40 Princeton: Inset Electric Stove-Style Fire.

Combining the enduring charm of a traditional stove with the sophistication of modern electric design, the VS40 Princeton presents a refined inset solution for classic interiors. Crafted with a cast aluminium frame and complemented by a beautifully detailed mock stove door, it captures the character of a cast iron stove while offering the clean integration of an inset appliance.

Beyond its timeless aesthetic, the VS40 Princeton delivers a truly immersive experience. A realistic illuminated log set, complete with full colour and brightness adjustment, is enhanced by a "breathing" ember bed and beautifully controlled flame visuals, creating depth and authenticity. Integrated downlighting, fuel bed lighting, and ambient light compatibility allow for a layered, atmospheric effect tailored to any setting.

Offering up to 2kW of heat, the fire is operated effortlessly via remote, app, or voice control, giving complete flexibility at your fingertips. Additional features such as sound effects, flame speed control, eco mode, cool blow function and a discreet no-canopy heater ensure both comfort and convenience, while a wall-mounted remote holder adds a considered finishing touch.

Blending classic stove styling with advanced technology, the VS40 Princeton creates a striking and versatile focal point, perfectly suited to both traditional and contemporary living spaces.

VS40 preset colour options shown Page 13. For added installation versatility, the VS40 Princeton is also available with an optional spacer box, enabling easier fitting where additional recess depth is required. See page 15 for spacer box details.

VS40 Spacer Box:

A refined yet highly practical enhancement, the VS40 Spacer Box is designed to extend installation versatility without compromising on style. Finished in a smooth black powder coat, it offers a sleek, understated appearance that integrates seamlessly with the appliance.

Engineered to reduce the VS40 inset depth from 300mm to 225mm, this discreet solution opens up a wider range of installation possibilities, making it ideal for more compact or restricted spaces. Combining intelligent design with a clean, professional finish, the VS40 Spacer Box ensures both flexibility and visual integrity in any setting.

Bassano Suite:

Elevate your living room into a captivating retreat with the extraordinary Bassano Suite. Crafted from high-quality white veneer, this suite includes the versatile Sandon appliance, hearth, and back panel, making it the perfect choice for larger rooms or for those looking to create maximum visual impact. Guaranteed to give your home a touch of style and luxury, this suite exudes timeless elegance and radiates a mesmerising allure that will leave you and your guests in awe.

Featuring the Sandon appliance which provides instant heat, realistic flames, and adaptive ambient lighting to your living space. The appliance comes with four interchangeable fuel beds; logs, coals, pebbles, and crystals allowing you to tailor the look to suit your tastes. Its exceptional design enables a harmonious blending of contemporary aesthetics with traditional charm, ensuring it complements any interior decor, whether you prefer modern or classic styles.

Material

The white veneer used in the Bassano Suite's construction adds to its visual allure while guaranteeing durability and longevity.

The suite is designed to create a warm and inviting atmosphere, enhanced by the Sandon's innovative multi-colour flame technology and impressive heat output of up to 2kW.

Fuel Bed

Choose from logs, coals, pebbles, or crystals, each included as standard, to match your mood and style.

For a sleek, modern aesthetic, pair the crystal or pebble fuel bed with the mesmerising blue or green flame settings. Seeking a cosy winter vibe? Let the glowing red flames dance above the log or coal fuel bed, creating a warm and inviting atmosphere.

With the Sandon's multi-colour flame technology and infrared remote control, you can effortlessly adjust your fireplace's look and feel, bringing year-round ambience to any room in your home.

Key Features

Designed in the UK and fully ERP compliant, this electric fire is not only stylish but also environmentally conscious. The user-friendly infrared remote control with an LCD display allows you to effortlessly manage all settings, while the fully programmable timer provides automatic time and temperature control over a 7-day period.

Key Features:

- Infrared remote control with LCD display: Easy-to-use interface for simple operation.
- Four different fuel beds: Logs, coals, pebbles, and crystals to match your preferred aesthetic.
- RGB colour-changing flame effect and fuel bed: Create the perfect ambience.
- Thermostatic control: Maintain your desired temperature with ease.
- 7-day programmable timer: Set your fire to suit your schedule.
